

WANTED: Weather Observer

The National Weather Service in Wichita, Kansas is looking for a Weather Observer within 5 miles of the Cassoday Area in Butler County, Kansas. This person will be responsible for providing a daily report of the high and low temperature along with any precipitation. Even though this is a volunteer position, we will be supplying you with a high quality rain gauge and an electronic max/min thermometer which we will set up for you. The observation should not take up more than 5 minutes of your time and will maintain weather records for Cassoday that have been in place since 1955.

If you have an interest or need more information

E:mail Scott.g.Smith@noaa.gov with your Name and Phone Number

Thanks!

Scott Smith
